

Based on principles of the *Early Years Learning Framework for Australia (EYLF)* and the *Queensland Kindergarten Learning Guidelines (QKLG)*, run by our fully qualified and experienced Early Learning Educators, our kindergarten program begins with a **HIGH ENERGY** stage show which mixes exciting demonstrations, humour and quality scientific explanations into an interactive performance. Children aged 3+ are invited back to WONDER, IMAGINE and INQUIRE in small groups to participate in a hands-on science activity.

Choose between:

THE "WONDERFUL WORLD" SCIENCE SHOW

(30 mins duration)

Including curious colour changes, cloud creations, extraordinary chemical reactions, a little bit of magic and of course plenty of FUN learning about the amazing world all around us!

FOLLOWED BY A... SNOW MAKING WORKSHOP

(15 mins duration in groups <30 children)

Children take an active role in constructing knowledge using their senses to explore some unusual properties of materials through a scaffolded and supported play experience.

THE "BUSY BODIES" SCIENCE SHOW

(30 mins duration)

Based on the amazing functions of our bodies, exploring body systems and their functions, and how to keep ourselves safe and healthy.

FOLLOWED BY A... SUN SAFETY WORKSHOP

(15 mins duration in groups <30 children)

While exploring the effects of the sun, children strengthen their fine motor skills while making a UV light reactive bracelet.

GET YOUR CENTRE INVOLVED
IN SOME
SERIOUSLY FUN SCIENCE

FOR ONLY \$500! (+GST)

Includes...

- ✓ An EXCITING science stage show
- PLUS**
- ✓ A HANDS-ON science workshop aimed at ages 3+
- ✓ Physical extension resource provided to follow up learning after incursion concludes
- ✓ Electronic Educator Resource pack which make linking to frameworks and programming a breeze!

A range of AMAZING EXTRAS are available at an additional fee.

Travel or other surcharges may apply.

PLANNING FOR OUR VISIT

Please prepare a large open area for our arrival with space for the kids to comfortably sit and watch the show, and enough tables for each snow-making group to work at.

Our team of experienced science educators will do the rest, bringing a fun **STREET SCIENCE** laboratory to enrich your kindergarten curriculum!

SUGGESTED ITINERARY

MORNING SESSION (afternoon sessions also available)	
9:00am	Staff arrive and setup
9:30-10:00am	Science Show (whole group)
10:00-10:15am	You supervise your children while we quickly clean up our gear and setup for the workshop
10:15-10:30am	Kindy group #1
10:30-10:40pm	Transition between groups (You supervise children)
10:40-10:55am	Kindy group #2 (if necessary)
10:55-11:30am	Staff clean up and depart.

Our STREET SCIENCE Early Learning Educators truly value the importance of following up interests generated by community visits to your centre. We provide DOCUMENTATION OF LEARNING and send out an electronic Educator Resource Pack after the incursion to make LINKING FRAMEWORK a breeze, as well as providing learning EXTENSIONS that can be done at your centre after the incursion is finished!

AMAZING EXTRAS

GASEOUS GEYSER KITS

A fully functional DIY kit that provides everything you need for this popular physical reaction. Your little scientists will LOVE this ideal combination of carbonated cola, Mentos candy and tools they need to erupt a gigantic geyser in your centre playground. The perfect extension to any science-based interests that arise after our visit!

ONLY \$50(+GST)

MODEL ROCKET LAUNCH

Your Early Learning Educator's participate in fuelling up and launching a REAL model ROCKET with our Street Science host at the end of the incursion. These rockets blast up to **250m** into the atmosphere before releasing a parachute and sailing back to earth. A truly inspiring experience for all Junior Scientists.

ONLY \$100(+GST)

* A rocket launch may not be available at all locations due to safety and air traffic requirements.

WHY PICK STREET SCIENCE?

"Our presenter had a wonderful presence with the children... she was so competent and capable in gaining their attention" -Katelyn, Alderley Kindergarten

"Everything was organised and well planned. Our presenter was energetic and built an instant rapport with the children." -Dani, Clayfield Pre-prep
